Professional Experience

Full stack developer intern at Xolvexis

I worked as a Full Stack MERN Developer Intern at Xolvexis for 6 months, where I built web applications using MongoDB, Express.js, React, and Node.js, gaining hands-on experience in frontend, backend, and API development.

Built a complete and scalable e-commerce web application

I developed a fully functional e-commerce website named Velvora, built with the MERN stack, featuring responsive design, product management, user authentication, and seamless frontend-backend integration.

Build a Full stack Twitter X application

I developed a Twitter/X clone using the MERN stack, implementing real-time posts, user authentication, likes, comments, and a responsive interface to simulate a microblogging platform.

Certificate from Dotcom institute
